

# Uify® Venetian Blind System

Uify®

## Unify® Venetian Blind System

Unify Venetian blinds are a truly luxurious product and are the perfect addition to any room. They are a fashionable blind to have at your window and are often considered to not only be a practical choice but also a feature of your room, creating a simple, elegant, yet stylish look.

The tilting slats will offer you total control over the amount of light or shade that is let into your room, as well as providing complete privacy. Wood is also a natural insulator, helping to keep the cold out during the winter months, and shielding the sun through the summer. Suitable for various different sized windows from small to large, narrow to wide.

For a more modern look a range of aluminium slats are also available.

### Key design features:

- Heavy-duty aluminium box profile
- Octagonal drive barrel provides smooth operation
- Cord spools protected within box profile
- Concealed swivel bracket fixing
