

# Uify® Roman Track System

Uify®

## Unify® Roman Track System

The Unify Roman blind is a luxurious window dressing that will transform any interior design theme. The clean simple lines give the impression of expanding the space in a room. Roman blinds can be adapted to any room in the home, whether you require a privacy blackout fabric for the bedroom or a light filtering fabric for the conservatory. The blinds can be easily raised or lowered and provide you with perfect control of the light to satisfy your needs and fit neatly against the window. This enables the blind to perform well both from a privacy perspective as well as from an insulation view point, keeping you warmer in winter, cooler in summer.

### Key design features:

- Heavy-duty aluminium box profile
- Integrated velcro fabric mount strip
- Cord spools slide adjustable
- Concealed swivel bracket fixing
